## Your household electricity bill explained

### 1. Here's who to call for help.

Find the important numbers you might need, fast.

For queries about your electricity account, or tailored assistance and advice, call or visit us online at [powerdirect.com.au](http://powerdirect.com.au).

If you experience a power outage or an unexpected loss of energy supply to your property, we've made it easy for you to find the contact number for your distribution company. Your Distributor is responsible for the poles, wires and reliability of energy supply in your area, and is best placed to provide assistance.

### 2. Your account details for handy reference.

It's easy to see your account details at a glance.

Your account number shown here is specific to your electricity account, and you should quote it when you contact us with any queries.

### 3. How do you compare to nearby homes?

This graph provides a comparison of your electricity usage with other homes in your area.

We work out this comparison based on average usage data supplied by the Australian Energy Regulator.

### 4. See your average daily usage and costs at a glance.

In this section, it's clear to see how much electricity you're using.

The graph displays your average electricity usage and costs over the past 13 months. The Snapshot shows a summary of your average daily costs and usage for the specific billing period, and your average usage at the same time last year so you can see if it has changed.

Notice a difference in your average daily usage? There are several factors which could change your average daily usage, such as the installation of new electrical appliances or a shift in your usage habits.

### 5. Clearly see what to pay and when.

We've made it simple to see how much you need to pay and by when.

Your bill overview shows the balance brought forward (any amount carried over from previous bills, which may include any unpaid balance or credits). This is added to your new charges for this billing period to arrive at the total amount due.

Please note that overdue amounts from previous bills may have a different due date, which will be shown in this section and on the back of your bill.

If you make your payments by Direct Debit or Bill Smoothing, you'll see your payment date, amount and frequency listed.

If you're eligible for a Pay on Time Discount, you'll see the full amount due followed by the discounted amount if you pay by the due date.

### 6. Find more useful information.

Staying informed about changes that may affect your account is simple.

We'll keep you up-to-date with additional Powerdirect product and service information, as well as any pricing, industry or regulatory changes here.

**Your electricity supply details.** Page 2 of 2

**Supply address:** 123 Sample Street SAMPLETOWN VIC 3000  
**Supply period:** 19 Dec 2018 to 19 Mar 2019 (92 days)  
**NMI:** 41023399361

Meter no.	Read type	kWh
647774	Actual	451.988
647774	Actual	293.195
647774	Actual	226.176
647774	Actual	384.567

Your electricity usage is measured by an interval meter, this means that you will not see a start or end reading on your bill. Instead, the total amount of your electricity usage is shown. Your next meter read is due between **20 Jun 19** and **24 Jun 19**. Please ensure easy access to your meter on these days.

**How we've worked out your bill.**

## 7. Important information is listed here.

Need further assistance?

You'll find information about payment assistance, interpreters, moving your electricity to a new home and other important service messages in this section.

## 8. View your electricity supply details.

You'll find your electricity supply details clearly listed in one place.

This includes information about your electricity supply for the supply period (the period covered by this bill), and the specific Energy Plan you're on. Plus, this is where you'll find the NMI (National Meter Identifier), a unique identifier linked to your supply address. You may be required to quote this number if you have work carried out on your supply.

## 9. Find your meter read details here.

In this section, you'll find your meter read details, including whether an actual or estimated read has been taken.

These are used to calculate your electricity bill for the billing period. If you have a smart meter, the reading

will be a guide only and may not reflect the total amount of electricity you have used in this billing period. Your bills will be calculated using half hourly intervals of data provided to us.

Under this table, you may also find important messages about your meter, including your next scheduled meter read date, or any issues encountered when gaining access to your property.

## 10. Here's how we worked out your bill.

We've broken down your electricity charges into a simple structure, so you can better understand how we've worked out your bill.

Under the **previous balance and payments** section, we list any payments you've made, and any discounts we've applied, to show the final balance brought forward to this bill.

The **new charges and credits** section is divided into units and prices for this billing period, according to your electricity rates. We list your new charges for your electricity supply and usage, plus any credits, discounts, concessions and adjustments we've applied to this bill.

The final total amount shown here includes the applicable GST.

## 11. Find your payment details here.

Under the payment amount and due date, you'll see your reference number. You'll need to quote this, when requested, for most payment methods.

If you're paying in person at a post office, simply present your bill so the code here can be scanned to record your payment.

## 12. See all our payment options here.

We offer several convenient ways to pay your electricity bill including Direct Debit, which takes the hassle out of paying your bills and helps you ensure you always pay your bills on time.

## The look of your bill is changing

On 1 July 2019, new regulatory requirements were introduced in Victoria. Some of the changes affect how your bill looks and how you can compare energy plans. Contact us on **1300 138 647** for more information.
