Off-Peak	10pm - 7am Mon-Fri and all day weekends and public holidays	c/kWh	15.97	17.567
Supply charge		c/day	182.00	200.200

## AGL Reference Comparison

**What does this mean for the average customer?** Following the introduction of price regulation, electricity retailers are now required to tell residential and small business customers about how their electricity rates would compare to the benchmark "Reference Price" set by the AER for an average customer. An average residential or small business customer is someone in a particular distribution area (e.g. Ausgrid Networks), on a particular type of tariff (e.g. single rate), who uses the average annual household / small business consumption determined by the AER. Where an energy plan includes different components (i.e. controlled load and time of use), the AER has also specified how the average annual usage should be split between these components. Keep in mind that the figures in this section are estimates only and based on the usage patterns of an "average customer". Your electricity costs may be significantly different depending on your own actual usage.

Tariff	Average Annual household usage	Estimated annual cost (incl. GST)	Comparison to Reference Price
Residential Single Rate	3900 kWh	\$1,578	8% More
Residential Single Rate with Controlled Load 1	6800 kWh	\$2,171	6% More
Residential Single Rate with Controlled Load 2	6800 kWh	\$2,237	9% More
Residential Single Rate with Controlled Load 1 & 2	6800 kWh	\$2,193	7% More
Residential Time-of-Use	3900 kWh	\$1,696	16% More
Residential Time-of-Use with Controlled Load 1	6800 kWh	\$2,306	12% More
Residential Time-of-Use with Controlled Load 2	6800 kWh	\$2,372	16% More
Residential Time-of-Use with Controlled Load 1 & 2	6800 kWh	\$2,327	14% More
Small Business Single Rate	20000 kWh	\$8,628	18% More

### ^Transitional Standard Retail Contract Rates

If you are a residential or small business electricity customer who was on a variable rate market contract prior to 1 July 2019, or a residential electricity customer on a standard retail contract, your electricity supply will continue under these Transitional Standard Retail Contract rates from 1 July 2019. These rates will continue to apply to you until your energy plan ends or until we notify you otherwise.

All times are in Australian Eastern Standard Time (AEST), unless you have an interval meter, in which case, times will be adjusted to Australian Eastern Daylight Time (AEDT) during daylight savings periods.

<sup>1</sup>Rates subject to confirmation of distribution zone, network tariff and meter type at your supply address.
