**Solar metering charge (Where applicable)\***

Solar metering service charge	cents/day	7.00	7.700
-------------------------------	-----------	------	-------

\*These charges will apply if you have solar panels installed at your premises.

**Powerdirect Reference Comparison**

**What does this mean for the average customer?** Following the introduction of price regulation, electricity retailers are now required to tell residential and small business customers about how their electricity rates would compare to the benchmark "Reference Price" set by the AER for an average customer. An average residential or small business customer is someone in a particular distribution area (e.g. Energex), on a particular type of tariff (e.g. single rate), who uses the average annual household / small business consumption determined by the AER. Where an energy plan includes different components (i.e. controlled load and time of use), the AER has also specified how the average annual usage should be split between these components. Keep in mind that the figures in this section are estimates only and based on the usage patterns of an "average customer". Your electricity costs may be significantly different depending on your own actual usage.

Tariff	Average Annual household usage	Estimated annual cost	Comparison to Reference Price
Residential Single Rate	4600 kWh	\$1,688	8% More
Residential Single Rate with CL 1 (T31)	6300 kWh	\$1,995	4% More
Residential Single Rate with CL 2 (T33)	6300 kWh	\$2,100	9% More
Residential Single Rate with CL 1 & 2 (T31 & T33)	6300 kWh	\$2,082	9% More
Residential Time-of-Use	4600 kWh	\$1,790	15% More
Residential Time-of-Use with CL 1 (T31)	6300 kWh	\$2,093	9% More
Residential Time-of-Use with CL 2 (T33)	6300 kWh	\$2,197	15% More
Residential Time-of-Use with CL 1 & 2 (T31 & T33)	6300 kWh	\$2,179	14% More
Small Business Single Rate	20,000 kWh	\$6,650	11% More

**^Transitional Standard Retail Contract Rates**

If you are a residential or small business electricity customer who was on a variable rate market contract prior to 1 July 2019, your electricity supply will continue under these Transitional Standard Retail Contract rates from 1 July 2019. These rates will continue to apply to you until your energy plan ends or until we notify you otherwise.

<sup>1</sup>Rates subject to confirmation of distribution zone, network tariff and meter type at your supply address.
